Prorated Bills Upon change in ownership, permanent disconnection or initial connection of a customer, the minimum bill will be prorated over the billing period.

Terms of Payment Bills are rendered net and are due and payable within twenty (20) days from date of bill.

Terms and Conditions Service under this rate schedule is subject to the Company's Rules and Regulations on file with the Public Service Commission (PSC).

Service Availability Charge A service availability charge of the applicable minimum bill as specified in this rate schedule will always be in effect when service is active as defined in the Company's Rules and Regulation.

Water Cost Adjustment Charge The water volume charge will be increased or decreased in an amount equal to the effective change in cost per unit volume of water to the Company, multiplied by a factor of 1.1765 (to allow for 15% "unaccounted for" water). This increase or decrease shall be prorated for the number of days in the billing period during which the changed cost per unit volume of water was in effect.

Reconnection Charge A fee of \$200.00 will be charged for reconnecting service which has previously been disconnected at the request of the customer, or has previously been disconnected by the Company in accordance with the applicable Company Rules and Regulations as approved by the PSC.
